Vijayawada, Andhra Pradesh

Career Objective

Motivated Computer Science student with strong proficiency in Python, Java, and C, and a solid understanding of Data Structures and Algorithms. Seeking an entry-level software engineering role to apply my analytical problem-solving skills and technical knowledge to build efficient, scalable solutions while contributing to the success of a fast-paced professional organization.

Education

B.Tech in Computer Science & Engineering Prasad V. Potluri Siddhartha Institute of Technology, Vijayawada CGPA: 8.83 (up to 3rd Semester)	2024 – 2028
Intermediate (MPC) Narayana Junior College	2022 – 2024 Marks: 971 / 1000
10th Class (State Board) Lahari Vidya Mandir	2021 – 2022 Marks: 507 / 600

Technical Skills

- **Programming Languages:** C, Java, Python
- **Data Structures & Algorithms:** Arrays, Strings, Linked Lists, Stacks, Queues, Trees (Basic), Hashing (Basic), Sorting, Searching, Time & Space Complexity
- **Core Computer Science:** Object-Oriented Programming (OOP), DBMS (Basic), Operating Systems (Basic)
- **Developer Tools & Platforms:** Git, GitHub, VS Code, LeetCode, CodeChef, HackerRank
- **Problem-Solving Skills:** Debugging, Logical Reasoning, Analytical Thinking

Projects

Skill Gap Analysis & Career Recommendation System

- Developed a tool to analyze user profiles against industry standards to identify technical skill gaps.
- Integrated a recommendation engine to suggest personalized learning paths and career roles.
- Utilized Python for data processing to ensure accurate mapping of skills to job market trends.

Automated Resume Builder

Live Demo — [GitHub](#)

- Built a web-based application that allows users to generate professional, ATS-friendly resumes.
- Implemented dynamic form handling to capture user data and export it into structured PDF formats.
- Focused on backend logic to provide a seamless user experience and clean layout generation.

SKY VOLT – Wireless Energy Transfer System

- Worked on a prototype for long-range wireless energy transfer using laser-based charging.
- Integrated sensors and embedded components for efficient energy transmission.
- Explored system constraints, safety considerations, and scalability challenges.

Certifications

- Programming for Problem Solving using C
- Python Essentials – Cisco Networking Academy
- STEP Plus English Certificate
- Certificate in MS Office (Word, Excel, PowerPoint) – SICE Computer Education, 2024

Leadership & Activities

- Member, Rotaract Club of Royal City Bezawada
- Participant, Entrepreneurship & Innovation Workshop
- Active participant in hackathons and technical events
